Event Sampling (ABC format)  
*Child Observation Time  
Sample*

observation: time sampling  
and event sampling. Time  
sampling Time sampling is  
often used where there is a  
concern about an aspect of  
behaviour. It involves  
observing a child for an  
extended period such as a  
whole morning/afternoon

# Online Library Child Observation Time Sample

session, or even a whole day. A record lasting for a predetermined length of time (e.g.

*Time & Event Sampling -  
kanopystreaming.com*

time samples are repeated short focused snapshots of child development used to collect precise data. time samples can be used to observe a child's behaviour to identify possible concerns. For example a shy child who does not relate to other children. The observer needs to be aware of not making it obvious to the child that they are being observed.

## *Time Sampling - Childcare*

In a time sample observation, an observation of a child is made every five minutes over a set period of time, usually an hour. The observations are only brief but will include the activity the child is engaged in, which area of the nursery they are in and the level of involvement at that particular time.

## *Making Observations | Early Years Management | Teach Early ...*

*Observational Child Study  
Assignment - UKDiss.com*

Time sample. Time samples are a narrative snapshot of what a child is doing at a particular moment in time. They are completed at pre-determined intervals, e.g. every 15 minutes, depending on the total length of time you want for your observation. Although they do give some idea of what a child is doing over an extended period of time, they are limited as they do not record anything

*Example - UKEssays.com*

Time sampling: The observer records the frequency of a behavior's occurrence over time. Involves observing specified behaviors of an individual or group, and recording the presence or absence of this behavior during short intervals of uniform length. Behavior is specified, defined, and limited. Provides quantitative data or number of events. Advantages
