The word 'philavery' was specially invented to describe this book - a collection of words chosen simply on the grounds of their aesthetic appeal. Some of these words appeal because of their aptness, some for their obscurity, some for their euphony, and some for their quirkiness. As a collection they will be a delight to all word lovers.

Ford Madox Ford is a major figure of the modernist age, yet many of his works do not fulfil the expectations associated with the category of modernism. In *Ford Madox Ford and the Misfit Moderns*, the author examines the ways in which Ford, alongside other 'misfit moderns' (Richard Aldington, Arnold Bennett, Joseph Conrad, Robert Graves, Siegfried Sassoon, H. G. Wells, and Rebecca West), destabilises the fundamental structures and forces that shape all narratives, from the processes of characterisation and plotting to the distinction between autobiography and fiction. In so doing, Ford exhibits a form of 'in-betweenness' that constitutes an exemplary responsiveness to the conditions of modernity whilst challenging many of our assumptions about early twentieth-century writing. Offering original readings of Ford's Edwardian fiction and First World War writing, this book poses wide-ranging questions about the nature of narrative and the distinction between modernism and modernity. -- Book cover.
