Durante largos años como misionero y experto en ecumenismo, Hans-Ruedi Weber ha hecho viva

y accesible la Biblia a miles de personas a través de los estudios bíblicos que ha dirigido con grupos de las más diversas culturas, contextos y situaciones. Además, ha enseñado a centenares de cristianos a aprovechar sus capacidades para ayudar a grades y pequeños grupos a descubrir más profundamente el mensaje bíblico. En este breve manual nos ofrece lo que él ha descubierto en relación al estudio bíblico en grupo durante tantos años de experiencia. Según él, dicho estudio puede centrarse en la Biblia no sólo como documento literario, sino también como tradición oral en forma de narraciones y cantos, como dramatización cúltica y simbólica, como Palabra visible a través del arte y como fuente de meditación. A cada uno de estos cinco enfoques dedica un capítulo, ilustrando cómo han sido utilizados a lo largo de la historia de la Iglesia y ofreciendo sugerencias prácticas y ya probadas para animar el estudio actual de la Biblia. Hans-Ruedi Weber, que perteneció al comité directivo del Consejo Mundial de las Iglesias desde 1955 hasta que se retiró en 1988, se ha dedicado a la animación de grupos de estudios bíblicos desde 1971.

C.E.) through the dense and complex manner in which Christian authors wrote about Jews in the charged space of the "holy land." The book employs contemporary cultural studies, particularly postcolonial criticism, to read Christian writings about holy land Jews as colonial writings. These writings created a cultural context in which Christians viewed themselves as powerful—and in which, perhaps, Jews were able to construct a posture of resistance to this new Christian Empire. Remains of the Jews reexamines familiar types of literature—biblical interpretation, histories, sermons, letters—from a new perspective in order to understand how power and resistance shaped religious identities in the later Roman Empire.

Studies of medieval Biblical interpretation usually focus on the printed literature, neglecting the vast majority of relevant works. Timothy Bellamah offers a groundbreaking examination of the exegesis of William of Alton, a thirteenth-century Dominican regent master at Paris whose commentaries have never previously appeared in print. As a near contemporary of Hugh of St. Cher, Bonaventure, Albert the Great, and Thomas Aquinas, William was an important representative of university exegesis at a time of rapidly changing methods and

remarkable intellectual development. His commentaries are valuable resources for understanding Biblical study of the thirteenth century, in the schoolroom and in the pulpit. Yet study of William's work has been impeded by the dubious authenticity of numerous commentaries questionably attributed to him over the centuries. Bellamah addresses these complex problems by unearthing evidence of authorship in each commentary's style and methodology. This inquiry employs the traits of William's commentaries as criteria for constituting a list of works that can be reliably attributed to him, which, in turn, provides a crucial basis for studying his exegesis. William was a man of his time, but even more than his contemporaries he was deeply interested in history and the literal sense, which he understood to be the intention of Scripture's authors, divine and human. He took a keen interest in Biblical history and put to use a wide array of procedures for textual, linguistic, and rhetorical analysis. At the same time, he remained aware of the spiritual senses and the diverse elements of the exegetical and theological tradition in which he stood.

Readers may be surprised at the complex course that many biblical texts traveled between original composition and inclusion in the Jewish or Christian canons of Scripture. Four different patterns of development are examined and evaluated in this study.

Asserts that Jerome's Latin translation of the Hebrew Bible was motivated, *inter alia*, by a desire to provide the Christian world with a new instrument in its polemic against Judaism. In Jerome's view, the Septuagint, which was written before Jesus' time and lacked a Christological perspective, could not be effective in confronting rabbinic interpretations of the Bible which denied the fulfillment of biblical prophecies in the person of Jesus. Consequently, a new translation was needed, based on an allegorical, figurative interpretation of the Bible, which would coordinate biblical prophecies with their realization in Christianity.

Inspiration and Authority in the Middle Ages rethinks the role of prophecy in the Middle Ages by examining how professional theologians responded to new assertions of divine inspiration. Drawing on fresh archival research and detailed study of unpublished manuscript sources from the twelfth to fourteenth centuries, this volume argues that the task of defining prophetic authority became a crucial intellectual and cultural enterprise as university-trained theologians confronted prophetic claims from lay mystics, radical Franciscans, and other unprecedented visionaries. In the process, these theologians redescribed their own activities as prophetic by locating inspiration not in

special predictions or ecstatic visions but in natural forms of understanding and in the daily work of ecclesiastical teaching and ministry. Instead of containing the spread of prophetic privilege, however, scholastic assessments of prophecy from Peter Lombard and Thomas Aquinas to Peter John Olivi and Nicholas Trevet opened space for claims of divine insight to proliferate beyond the control of theologians. By the turn of the fourteenth century, secular Italian humanists could lay claim to prophetic authority on the basis of their intellectual powers and literary practices. From Hugh of St Victor to Albertino Mussato, reflections on and debates over prophecy reveal medieval clerics, scholars, and reformers reshaping the contours of religious authority, the boundaries of sanctity and sacred texts, and the relationship of tradition to the new voices of the Late Middle Ages.

Starting from the theory of scriptural interpretation elaborated by Hugh of St. Victor, the Augustinian Canons of twelfth-century St. Victor in Paris were leading theorists and practitioners of scriptural exegesis. This volume contains translations of the exegetical theories elaborated in Hugh of St. Victor's (d. 1141) *Didascalicon*, *On Sacred Scripture and its Authors*, *The Diligent Examiner*, and *On the Sacraments* (prologues); Andrew of St. Victor's (d. 1175) prologues to select commentaries; Richard of
