through Glencoe's partnerships with the American Institute of Certified Public Accounting (AICPA), Peachtree Accounting Software, and Robert Half International. This completely revised accounting program gives students the latest content and introduces the most exciting technology - all designed to connect accounting to the real world of business. Students will be introduced to the real world of accounting software through the integration of Peachtree throughout the text as an essential part of this program. Software tutorial directions are included at the point of instruction for each application.

Chapter Reviews

Cost Accounting provides comprehensive coverage of cost accounting principles and techniques in short learning segments that make it easier for students to learn and understand the material. In addition to a clear, concise writing style, carefully planned organization, and numerous illustrations, this new edition now offers an even more attractive design that enhances learning while maintaining student interest. A spreadsheet applications disk can be packaged with the text.

College Accounting continues to offer its trademark short learning segments followed by self-review questions and answers. This book has been thoroughly revised and given a new visual design. The book also includes more real-world examples than ever, high-interest problems and activities, in-text help, classroom-tested features, and support for a variety of software packages. The new edition continues to be the most current and thorough text available, and provides solid coverage of accounting concepts and principles.

Jacob Spon né à Lyon en 1647 est une belle figure de la " crise de la conscience européenne " du Grand Siècle. Médecin, alors que la médecine est encore un discours plutôt qu'une science, il tire de sa formation un regard aiguisé et le sens de l'observation qui lui permettent d'occuper une place de choix parmi les savants qui ont contribué à la naissance de l'archéologie, terme qu'il est le premier à employer et à définir dans la préface de son ouvrage : *Miscellanae eruditae antiquitatis* (1679). Il révèle les antiquités de sa ville, et écrit la première histoire imprimée de Genève. Bravant la peste et les corsaires, le mauvais temps et les brigands, il voyage de 1674 à 1676 et fait découvrir à ses contemporains l'Italie, la côte Dalmate, la Grèce et le Levant, dans une relation qui fut traduite en plusieurs langues, et qui devint le guide des voyageurs instruits jusqu'à l'époque romantique. Protestant convaincu, il préfère s'exiler plutôt que d'abjurer, et meurt à Vevey, en décembre 1685, deux mois après la révocation de l'Edit de Nantes.
