One of USA Today's Best Business Books of 2008-now updated with a new chapter It's hard to believe that one man revolutionized computers in the 1970s and '80s (with the Apple II and the Mac), animated movies in the 1990s (with Pixar), and digital music in the 2000s (with the iPod and iTunes). No wonder some people worship Steve Jobs like a god. On the other hand, stories of his epic tantrums and general bad behavior are legendary. Inside Steve's Brain cuts through the cult of personality that surrounds Jobs to unearth the secrets to his unbelievable results. So what's really inside Steve's brain? According to Leander Kahney, who has covered Jobs since the early 1990s, it's a fascinating bundle of contradictions. This expanded edition includes a new chapter on Jobs's very public health crisis and the debate about Apple's future.

Not illustrated. 1856 edition. Excerpt: ... observes, " Whom He will, He hardeneth." He would not have added this unless, under the expression " raised thee up," he had meant to comprehend that purpose of God, by which Pharaoh was ordained to magnify, by his obstinacy, the redemption of God's people, Israel. For if any one should say, that Pharaoh's being "raised up" signified his being raised from above to the summit of kingly honour; that indeed is some part, but not the whole, of the matter. For the LXX. Greek interpreters have here used the same expression as that by which they render the verb Hiphil, derived from the radical Kum "to arise." Moreover, God is said to "raise up" that, which He causes, by an outstretched arm, as it were, to accomplish the end He has ordained. The Scripture here principally looks at the beginning, or first-cause, of that which it is recording; that it may ascribe the whole to God alone. In this same manner, God is also said to "raise up" prophets, and ministers of salvation; that no man might claim any of these things to himself, on the ground of his own industry. Therefore, the meaning of Moses has been faithfully expressed by the term, "raised up," if you will but so receive it; nor did Paul receive it otherwise. And most certainly, the expression "raised up" comprehends, not less distinctly than summarily, what he had touched upon, both concerning the elect, and the reprobate; since he is claiming for God the right and the power to have mercy on whom He will, and to harden whom He will, according to his own pleasure and purpose. The apostle therefore maintains, that the right of hardening, and of showing mercy, is in the power of God alone; and that no law can be imposed on him as a rule for his works; because no law or rule can be thought of, ...

Thirty years ago a frustrated physicist from Seattle named Ron Gregg was retreating from an aborted attempt at a new alpine style route on Denali. His partner had been evacuated by helicopter, but Ron chose to ski back to the highway solo. In the process, Ron found a new direction in life. At that time, outdoor gear left much to be desired. Many of the best climbers and alpinists designed their own equipment out of necessity. They fashioned climbing harnesses, backpacks and entire kits in basements and garages. Nobody cared what the gear looked like. For a mountaineer with a penchant for design, the 70s and 80s were an era of extreme entrepreneurial opportunity and epic adventure. Designed by Adventure: 30 Years of Outdoor Research follows Ron Gregg' s seminal early years as he bootstraps what would become an iconic company known for relentless commitment to functionality and durability. His intense passion for making better products in his own factory establishes Outdoor Research as an outdoor industry leader, yet Ron' s devotion to his Seattle factory eventually imperils the company as globalization changes the game. His sudden and tragic death in the mountains of British Columbia creates a crisis as his family and the management team struggle to find a solution to keep the company going. Ultimately a new team comes together to build on Ron' s legacy and principles, building Outdoor Research into one of the fastest growing companies in its industry.
